

SKILLED LABOR NEEDED BY U.S.

Industrial Army Must Co-operate with Soldiers in Trenches, Says Holland.

It happened that on the day when President Wilson addressed Congress and the world for the purpose of stating the peace aims of the United States and of the allies, several of the men associated with large business and industrial enterprises who have been co-operating in Washington with the government were in New York and have been for two or three days since Tuesday of last week. Annual meetings of the national banks and other important annual gatherings brought these men of large affairs to New York. They have been in position, by reason of their association with the government, to learn many things in Washington of which the public has had little or no knowledge. From some of them important information has been obtained, although out of deference to the War Department's desire, a part of it must remain confidential or at least stated only in general terms.

According to these excellent authorities the President knew well, if the issue is forced by Germany and Austria, that the termination of the war will not be reached for two or three years, that within a few months he will have behind him abundant men, abundant resources, abundant munitions, abundant money and abundant food.

One of these days may come when the War Department's official statement which will tell the number of American soldiers now in France. It is not a half million, but is several hundred thousand. Within the next twelve months, so the President has been informed, the United States will have recruited thoroughly trained and well equipped, an army, which may not be as large as former President Taft recently said would be essential, 1,000,000 men, but will not fall much below that figure. This great army will have rifles in abundance, will have munitions in plenty, will be provided with big guns, if only two contingencies are happily met between this time and January 1, 1919.

If the army recruited within the next twelve months, including the soldiers already in service, should amount approximately to 2,000,000 men, or possibly more, then the only question which will arise with respect to transporting it to France is sufficiency of ships. It will be a grievous misfortune, in the opinion of those in high authority, if the greater part of this army be compelled to remain in the United States for months on account of lack of ships. There is no grievous apprehension that the submarines will endanger ships, but there is apprehension lest abundant transportation of this kind be unprovided.

The need of ships. If the army recruited within the next twelve months, including the soldiers already in service, should amount approximately to 2,000,000 men, or possibly more, then the only question which will arise with respect to transporting it to France is sufficiency of ships. It will be a grievous misfortune, in the opinion of those in high authority, if the greater part of this army be compelled to remain in the United States for months on account of lack of ships. There is no grievous apprehension that the submarines will endanger ships, but there is apprehension lest abundant transportation of this kind be unprovided.

Importance of Bible Emphasized by Daniels

"The Place of the Bible in a Man's Life" was the subject of an address yesterday by Secretary Daniels before the Evermann Bible Class, of the Church of the Covenant.

"The Bible plays a most important part in every man's life," said Secretary Daniels, "and the study of it should not be neglected. It is not only a necessary part of education, but proves a spiritual guide, the value of which cannot be exaggerated."

He related a number of incidents showing how knowledge and appreciation of the Bible and the teachings of Christ had proved invaluable helps in many instances.

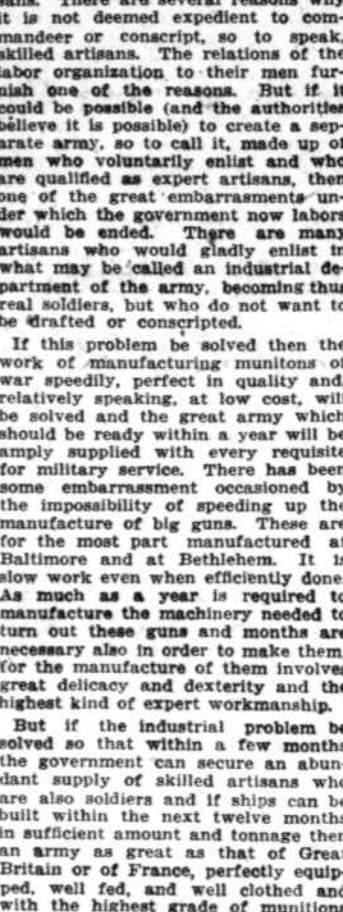

BANK STATEMENTS.
REPORT OF THE CONDITION OF
The National City Bank of New York,
New York, in the State of New York, at the close of business December 31, 1917.

RESOURCES.		LIABILITIES.	
Loans and discounts, \$401,565,791.23		Capital stock paid in, \$20,000,000.00	
Real estate, 1,000,000.00		Surplus and undivided profits (net), 60,949,698.22

That Rookie from the 13th Squad.

By P. L. Crosby

"WHERE ARE YOU GOING WITH THAT?"
"TO THROW IT AWAY, SIR."

"THROW IT IN THE INCINERATOR." "YES, SIR."

"WHY DIDN'T YOU TELL ME THERE WAS POWDER IN IT?" "YOU DIDN'T ASK ME."

"BOOM!"

The Married Life of Helen and Warren
By MABEL HERBERT URMER.
Originator of "The Married Life," Author of "The Journal of a Neglected Wife," "The Woman Alone," Etc.

Helen's Desire to Create an Impression Proves Expensive and Humiliating.

"Oh, everything's so expensive," objected Helen, as they turned the crowded, light-studded corner of Forty-second street and Broadway.

"Let's go to Romanelli's," "No, no! None of your cheap table d'hotes tonight," grumped Warren, "I want some real food."

"We'll see," noncommittally. "Feel pretty cavernous. Hadn't time for much lunch."

Turning in under a flashing electric sign, they swung through the revolving doors into a region of gilded gorgeousness. A haughty youth in plum-colored livery relieved Warren of his hat and coat.

Down the velvet-carpeted corridor, and they entered a high-domed room, slightly with crystal lights, Warren's height and commanding air always insured the deferential attention of the head waiter, who now removed the reserved card from a desirable table and seated them with a flourish.

When the formidable double-page menu was placed before them, Helen's attention was instantly caught by the prices. At this place they had always been exorbitant, but they seemed prohibitive. Sixty cents for soup, two-fifty for broiled chicken. And the vegetables!

"Eighty cents for lima beans!" "That is pretty steep," admitted Warren. "I'm going to have cream of celery soup and nothing else!"

"Now look here! We're going to have a decent meal!"

"WHERE ARE YOU GOING WITH THAT?"
"TO THROW IT AWAY, SIR."

"THROW IT IN THE INCINERATOR." "YES, SIR."

"WHY DIDN'T YOU TELL ME THERE WAS POWDER IN IT?" "YOU DIDN'T ASK ME."
